EXPERIENCE

TECH LEAD

Jul 2020 – Present

Signatrix GmbH

Berlin, Germany

- *Innovation Driver* – Executed an extensive revamp of codebases to enhance scalability and resilience, as well as to align them with the evolving product strategy.
- *Product Strategy* – Collaborated with leadership in expanding the product suite, shaping the technical roadmap, and managing technical debt.
- *Team Leadership* – Directed team operations, led recruitment initiatives, and facilitated the company's expansion.

SOFTWARE ENGINEER

Jan 2019 – Jul 2020

Signatrix GmbH

Berlin, Germany

- *Pioneering Team Member* – First full-time software engineering hire, worked closely with technical co-founders Felix Müller and Christoph Schwerdtfeger building the company's lineup of computer vision products and integrating them with various third-party hardware and software components.
- *DevOps Toolchain Development* – Implemented the company's DevOps infrastructure for managing the fleet of edge devices as well as the in-house toolchain for collecting, storing, versioning, annotating, displaying, and selectively exporting data for training deep learning models.
- *Quality Assurance* – Standardized development practices, including internal and customer documentation, automated QA, and Continuous Integration (CI) processes.
